

# Captain Trips

Set to Stun

Still standing tall, too proud, to fall, but still we live!  
Fighting till the end of all this, and I won't be broken!  
Burn it to the ground, and watch it grow  
Stronger no longer plagued by our faithless!  
And you can't break me down!

This is our calling we're going to war  
Blood lines the streets with the law we stand for...  
Take all your pain, and bottle it away  
Don't let your daylight be shadowed by your rage...

You want my heart?!  
You want my soul?!

We are the proud and the hopeless  
Bounded only by our weakness  
And you can have my spirit  
But you'll have to come and get it you bitch!

Still standing tall, too proud, to fall, but still we live!  
Fighting till the end of all this, and I won't be broken!  
Burn it to the ground, and watch it grow  
Stronger no longer plagued by our faithless!  
And you can't break me down!

You took our lives but I'll settle the score  
Before the end I'll bring this to your door...  
Beneath the stars, through an endless sea of cars  
We'll watch the sky bring down the rain...

You want my heart?!  
You want my soul?!

And though we lost this is still our creed  
This is how we live our lives  
All this hate is apart of me  
And it will be till I die!

Still standing tall, too proud, to fall, but still we live!  
Fighting till the end of all this, and I won't be broken!  
Burn it to the ground, and watch it grow  
Stronger no longer plagued by our faithless!  
And you can't break me down!

I'd die before I let you take my faith, my hate  
I'll take this to my grave!  
I'd die before I let you take my faith, my hate  
I'll take this to my grave!
