

# Win Or Lose

Seth Anthony

It's buried deep in the roots  
It runs through our blood  
We are who we are  
Ain't no backing down we done came too far  
We came too far

I was born from two addicts little ole me  
It's true what they say about the apple and the tree  
I didn't never care to slay the beast  
Everyday drink by drink it's slaying me  
I guess it's good that I'm different than my parents  
It's all the same devil no matter what the appearance  
Mama's cocaine battle yeah she still fighting it  
And daddy's eating pills like they Flintstone vitamins  
Could've chose to be bitter but chose better  
No excuse now I know better  
Despite the cards I was dealt and pain from it  
Just look at what I made from it  
My pain my struggle my story my journey  
Meet earning my glory entertaining to see  
Behind closed doors ain't what it should be  
But without it I wouldn't be me without a doubt

It's buried deep in the roots  
It runs through our blood  
We are who we are  
Ain't no backing down we done came too far  
We came too far

We ride or die it's in our soul  
It's the way we live that's all we know  
From the concrete down to this old dirt road  
Life ain't nothing but a rodeo  
Ain't slowing down or stopping no time soon  
We are who we are living our life win or lose

Life's so great til you really get to know it  
Behind closed doors all that pain that were holding  
I'm so frozen no one really knows him  
They only get to judge from the stuff I have showed them  
Forgetting my anxiety is eating me alive today  
I can barely even breathe I might die today  
I'm getting worried that my sister's getting high today  
But I gotta show it somehow I gotta hide the pain  
And Lord knows I don't wanna live like this  
Another bottle on the shelf I'ma kill right quick  
Another hole in my heart I'ma fill that bitch  
Made a deal with the Devil live in hell like this  
Funny outside is glitter and Gold  
We just cover up the scars we don't get to expose  
If I could take away the pain that my sister has known  
I would've been dead by now and hadn't written this song

We ride or die it's in our soul  
It's the way we live that's all we know  
From the concrete down to this old dirt road  
Life ain't nothing but a rodeo

Ain't slowing down or stopping no time soon  
We are who we are living our life win or lose  
We are who we are  
Win or lose  
We are who we are  
Win or lose
