

U-Turn

Seth Ennis

I didn't wanna drop you off
I didn't wanna call it a night
I hope I didn't come across
Like I didn't wanna drink inside
I knew we had chemistry
And I knew it'd hit me sometime
But girl I didn't think the minute
That I pulled out of your drive

You'd make me wanna U-turn this F150 right around
Whip a one-eighty on back to your house
Be there in five, I'm betting
No way in hell I'm letting
You turn into the girl that got away
We said goodnight, but I wanted to stay
I'm halfway home, girl, it ain't too late
Baby, hit me up and make me make a U-turn, U-turn, U-turn
A U-turn, U-turn, U-turn

It's hard to keep it 'tween the lines
'Cause I keep picking up my phone
And I hope there ain't no blue lights
Waiting for me down the road
I keep on reaching across the passenger seat
To see if you lost your lip gloss or an earring
Anything I could use as a little excuse
To point the headlights at what's in the rearview

And U-turn this F150 right around
Whip a one-eighty on back to your house
Be there in five, I'm betting
No way in hell I'm letting
You turn into the girl that got away
We said goodnight, but I wanted to stay
I'm halfway home, girl, it ain't too late
Baby, hit me up and make me make a U-turn, U-turn, U-turn
A U-turn, U-turn, U-turn

And baby ever since I got to leaving (ever since I got to leaving)
You know I been looking for a reason, any reason

And U-turn this F150 right around
Whip a one-eighty on back to your house
Be there in five, I'm betting
No way in hell I'm letting
You turn into the girl that got away
We said goodnight, but I wanted to stay
I'm halfway home, girl, it ain't too late
Baby, hit me up and make me make a U-turn, U-turn, U-turn
(Make me make a U-turn, U-turn, U-turn, baby)
A U-turn, U-turn, U-turn

I didn't wanna drop you off (U-turn, U-turn)
I didn't wanna call it a night (U-turn, U-turn)
