Oh baby close your eye
Close to me
000 00 000 00

Yeah baby, open the windows, open them
Yeah baby, open the windows, open them and come to me

Come on, come on, call out
Asleep separately, look to the sky
Today, do you realize what's changed? Do you really know?

With white curtains and dim lighting It's so cool
Do you like my new bed, come closer, Don't be shy

Yeah baby, open the windows, open them and come to me
Yeah baby, open the door, open it and enter

I wanna make love to you girl
The sound of footstep coming to the door
Absorbed in the feeling of my nerves
Your shadow hangs down in the gap
Unlocking all the magic the moment you knocked
My piece of art, Mona Lisa, Oh my ave maria, it's just us two

Now is the time to stop
When I recited my feelings for you, I knew you were ecstatic

In the light, with wine moistening your cherry lips So beautiful
Listen to the sweet melody I have in mind It's for U

Yeah baby, open the windows, open them and come to me
Yeah baby, open the door, open it and enter

First you say you want to know, you want to hear
First you say that want to know
You are the universe to me, oh girl
Show me your heart tonight

Yo follow me now ooh ooh ooh ooh
Nobody know anything, come closer
Quietly close your eyes
Close the door while like that uh-huh come here baby

Yeah baby, open the windows, open them and come to me
Yeah baby, open the door, open it and enter

(Open the closed door, open it)
I'm ready to bloom for you
(Open the closed door, open it)
I've prepared my heart for you
Oh baby close your eyes
Close to me
Yeah baby, open the windows, open them
