

Human Flow

Sevdaliza

Hello, there you are my friend
It's been a while since I was down and twisted
Life felt a different
I'm sure my heart made the burns

It's the human flow (Human flow, human flow)
Don't let it take you, let it wake you
It's the human flow (Human flow, human flow)
Don't let it break you, let it wake you

Take charge of the story we tell
It's a beautiful lie when it's twisted
I'm here and I'm sure you know me
In your name, they will hear

It's the human flow (Human flow, human flow)
Don't let it take you, let it wake you
It's the human flow (Human flow, human flow)
Don't let it break you, let it make you
It's the human flow (Human flow, human flow)
Don't let it take you, let it make you
It's the human flow (Human flow, human flow)
Don't let it take you, let it make you

It's the human flow
Don't let it take you, let it wake you
It's the human flow
Don't let it break you, let it make you
