Nothing...

I am, I have  
I breathe in and out  
I own a heart  
An ear and an eye  
I've only been here one time

It's passing me by  
Been in and out  
And in front of my judgmental eyes  
My precious disguise  
Business so cold  
Can't cope with my own  
How to not fail

I am flesh, bones  
I am skin, soul  
I am human  
Nothing more than human  
I am sweat, flaws  
I am veins, scars  
I am human  
Nothing more than human

I am flesh, bones  
I am skin, soul  
I am human  
Nothing more than human

I am human  
I am human
