

Float

Seven Hours After Violet

I'll float in here forever

I'm sinking down
I'm so far down
And I can feel you though you're all around
And I'm screaming out there
But I can hear you now

I'll float in here forever

Take me under
Take me under
I needed space you needed help
So down me if you
Take me under

And I'm standing face to face
As if the feeling here can change
I know you wanted out of here
And I know you want to break me down

It's been clear to see
You took the world and ripped out from under me
Ooh
There's no hope for me
Ooh
Why won't you

Take me under
Take me under
I needed space you needed help
So down me if you
Take me under

Perfect people
Flawlessly become
Perfect people
Trapped in their freedom

Take me under
Take me under
I needed space you needed help
So down me if you
Take me under
