

Magic In The Mist

Seven Kingdoms

Take your place, a crown belated
It's messy and complicated
Cast into the blackened night
By my own family, never again to return

My whole life I have been served
Given a gift that only you deserve
Breaking away, Changing my way, I will go

Head first into the stars
Beyond the gates of eternity
Magic in the Mist
In the unknown, I am alone
My love, my guide!

Little do you know, I won't let you go
Trust in what you feel from me
In your hands the pieces that you hold
The other half of my heart

With just a touch of divinity
They will see everything you mean to me
Soul survivor, my diamond dancer, I will go!

Head first into the stars
Beyond the gates of eternity
Magic in the Mist
In the unknown, I am alone
My love, my guide!

Head first into the stars
Beyond the gates of eternity
Magic in the Mist
In the unknown, I am alone
My love, my guide!
Moonlight darkens the sky
Vacancy, awakens me
From Blood and Ash we rise
It's you, it's me, A tangle of flesh and fire!
