

# Falling Fast

Seven Lions

Help  
I'm lost  
I fell  
When life got twisted

It feels like  
A knife  
The scars imprinted

Let's go back  
In time  
So we can fix this  
So we can fix this

I'm falling fast and I know it  
I can't leave you. I'm lonely  
Stole my heart and you froze it  
I'm screaming for you to open

I'm falling fast and I know, know, know, know  
I'm falling fast and I know, know, know, know

Cold cold blood  
Cold cold blood  
Cold cold blood  
Cold cold blood

I'm falling fast and I know it  
I can't leave you. I'm lonely  
Stole my heart and you froze it  
I'm screaming for you to open

Cold cold blood  
Cold cold blood  
Cold cold blood  
Cold cold blood

I'm falling fast and I know, know, know, know  
I'm falling fast and I know, know, know, know
