

# Never Learn

## Seven Lions

Pick your pretty self up  
Show them all of your love  
Just enough to drain it all away  
Fragile if you act tough  
Show them all of your love  
Conspiring with those demons night and day

I should have known  
Everything burns down  
I should have known  
I should have known  
Ashes melt like snow  
I should have known

And if the rain comes  
Will I miss watching our cities burn?  
I swear to God I never learn

When the rain comes down

And if the rain comes  
Will I miss watching our cities burn?  
I swear to God I never learn  
I swear to God I never

I swear to God I never  
I swear to God I never  
I swear to God I never

I should have known  
Everything burns down  
I should have known  
I should have known  
Ashes melt like snow  
I should have known

And if the rain comes  
Will I miss watching our cities burn?  
I swear to God I never learn

When the rain comes down

And if the rain comes  
Will I miss watching our cities burn?  
I swear to God I never learn  
I swear to God I never

I swear to God I never  
I swear to God I never
