

Never Learn

Seven Lions

Pick your pretty self up
Show them all of your love
Just enough to drain it all away
Fragile if you act tough
Show them all of your love
Conspiring with those demons night and day

I should have known
Everything burns down
I should have known
I should have known
Ashes melt like snow
I should have known

And if the rain comes
Will I miss watching our cities burn?
I swear to God I never learn

When the rain comes down

And if the rain comes
Will I miss watching our cities burn?
I swear to God I never learn
I swear to God I never

I swear to God I never
I swear to God I never
I swear to God I never

I should have known
Everything burns down
I should have known
I should have known
Ashes melt like snow
I should have known

And if the rain comes
Will I miss watching our cities burn?
I swear to God I never learn

When the rain comes down

And if the rain comes
Will I miss watching our cities burn?
I swear to God I never learn
I swear to God I never

I swear to God I never
I swear to God I never
