

The Great Divide

Seven Lions

Walls around your heart
I wanna get in
I wanna know you
You're scared to lose it all
I know who you've been
But I'll take a chance on you

Pull me in tonight and stay forever
I wanna know the secrets of your heart
Let's begin tonight
It's now or never
Love won't happen 'til you try to cross the Great Divide

You fight the light
And push it away
You're gone with the wind at the end of the day
Where are you going?

You play it safe
So there's nothing to win
I wanna come closer but you won't let me in
I wanna go where you're going

Pull me in tonight and stay forever
I wanna know the secrets of your heart
Let's begin tonight
It's now or never
Love won't happen 'til you try to cross the Great Divide
