

# Without You My Love

Seven Lions

I said I'd be right here  
I'd keep for all our years a ship through time  
Your eyes betray all your fears, flood with all our tears  
The tides were high

I can't be without you my love  
Oh I can't be without you my love  
Without you my love (without you my love)  
Without you my love (without you my love)  
Oh I can't be without you my love  
Without you my love (without you my love)  
Without you my love (without you my love)  
Oh I can't be without you my love

Without you my love  
Without you my love  
Without you my love  
Without you my love  
Oh I can't be without you my love

I can't be without you my love  
Oh I can't be without you my love  
Without you my love (without you my love)  
Without you my love (without you my love)  
Oh I can't be without you my love  
Without you my love (without you my love)  
Without you my love (without you my love)  
Oh I can't be without you my love

Without you my love  
Without you my love  
Without you my love (Oh I)  
Without you my love (Oh I)  
Oh I can't be without you my love
