

Sober

Seven Wiser

Les you feel everything
You pinch me
I am dreaming
I don't believe this
You're so reviling
And so deceiving
I don't know why
I need this to survive
It helps me believe in
The things that I am feeling

Don't know why I do this
Can't fight this feeling in me
Tell me that you understand me
Even though I can't stay sober
I still feel everything
Tell me that you understand me
Even though I can't stay sober
I still feel everything

You fed me your bullshit
All your words really sound good
Then you turn your back
Try my luck but it just burns you
I look at this bottle
This is how I'll unwind
They just stand back
And be my other swine

Don't know why I do this
Can't fight this feeling in me
Tell me that you understand me
Even though I can't stay sober
I still feel everything
Tell me that you understand me
Even though I can't stay sober
I still feel everything

I don't know why
I need this to survive
It helps me believe in
The things I am feeling

Tell me that you understand me
Even though I can't stay sober
I still feel everything
Tell me that you understand me
Even though I can't stay sober
I still feel everything
I still feel everything
I still feel everything
