Seven Witches

Everybody thinks they know it
They think they know it all
I've got knowledge in my mind
You could only hope for
Mentally superior
Who needs you et all?
I'll solve all the problems and
I'll enjoy all the spoils

Knowledge without character
You will never know what it's like

Voracious mental appetite
Devour and digest
Facts, figures and formulas
It's true - I am the best
Deviant by nature
Supercharged ego
Using all my powers
To reach a new all time low

Knowledge without character
You will never know what it's like
No!
You will never know what it's like
