

I listen to the stories, oh you tell so well
I cherished every word you said along the way
But now I know all you did was help me see
I know it will always be the same
All you did was make me stronger, its over

I wont let go of this feeling
Even though you'll never know
My life has a meaning, I wish you could see it
I wont let go of this feeling
I know you'll never know, I'll leave it alone

You thought that I was over, never to return
You made me out to be stronger, its over
By now I see it was good enough for me
Believe I'll never be the same
All you did was make me strong, its over

I wont let go of this feeling
Even though you'll never know
My life has a meaning, I wish you could see it
I wont let go of this feeling
I know you'll never know, I'll leave it alone

Just one more time
I hope this bridge we build it save you
I want to be here but not alone
I feel the space everything I look
Everything I look, believe it

I wont let go of this feeling
Even though you'll never know
My life has a meaning, I wish you could see it
I wont let go of this feeling
I know you'll never know, I'll leave it alone
