

Dying to Live

Sevendust

We're cold, immune to the abuse
Whatever price you pay, they take away
The only thing that matters now...

Everything little thing we want
Rips out a piece of us
With all that we give
Why am I dying to live?
With all that we have to face
Keep dying to live

Why do we believe this time around
We found our soul
Better make your peace with death
And take what's left
Ill see you on the other side, I know

Everything little thing we want
Rips out a piece of us
With all that we give
Why am I dying to live?
With all that we have to face
Keep dying to live

Everything little thing we want
Rips out a piece of me..
Rips out a piece of me

Everything little thing we want
Rips out a piece of us
With all that we give
Why am I dying to live?
With all that we have to face
Keep dying to live
