

## Feel Like Going On

Sevendust

What's the news today?  
What's the next thing to follow?  
Turning over pages when is it gonna be different

Nothing left to say, here's to everyone  
Did you think it would last?

In the still of the night it comes,  
I feel like going on  
When I feel nothing right it comes  
Do I feel like going on?

Ghost behind the keys  
what makes you think you're so different  
Cutting with the words you say  
and then you beg for forgiveness

All I have to say, heres to everyone  
Did you think it would last?

When I feel nothings right it comes,  
I feel like going on  
And just scream "You're Alive" it comes  
Do I feel like going on

What's its supposed to be  
I've wasted all my time  
You should be scared of me  
But you leave me all behind

Nothing left to say, here's to everyone  
Did you think it would last?
