Kill Me

Sevendust

You want something inside me to break
I'll give you the pieces to throw away
Oh we know how this end for me my love
That just the way you want it
That's just the way for you keep me down

So don't you say a word, don't go to sleep
You're bleed heart consumes me
Im fucked up enough no sympathy
So close it hurts to kill me

Leave me alone cuz I'm the last one you need to provoke
I'm way too proud to give the answers you want
I've found you out and you know it now
I feel it tear me up, this is goodbye my love
That's just the way you want it
That's just the waynto keep me down

So don't you say a word, don't go to sleep
You're bleed heart consumes me
I'm fucked up enough no sympathy
So close it hurts to kill me

And we lose everything we love
When the truth comes out
We don't surrender were broken enough
We say anything that we want
You're gonna hear me our, if it kills me now

So don't you say a word, don't go to sleep
You're bleed heart consumes me
I'm fucked up enough no sympathy
So close it hurts to kill me
