When the scattered pieces come together
Only then I can breathe
When the two lights face each other
Our tomorrows are revealed
When the sun sets and darkness comes
I only remember your warmth
Where the stars wrap around us
I'm going there, I'll be there

I wanna match you to my heart
When dawn comes, like the sky and sunlight
We are resembling each other with time
In the end, we'll become one

I'm like a bird
I'll fly wherever I can hear your voice
In the air
Wherever we are
When we face each other

Our eyes are meeting
Something bursting me
Electricity
Only your glance
Moving lips
We filled the empty universe
Each other's expressions are shining
Look at the galaxy you made

The reason for my existence is you
I wanna make you smile like the spring
Wherever we are, whatever we're doing
We know it's not important
We're just pulled by each other's eyes
Turn on the switch right now, brightly

I wanna match you to my heart
When dawn comes, like the sky and sunlight
We are resembling each other with time
In the end, we'll become one

I'm like a bird
I'll fly wherever I can hear your voice
In the air

Baby you, I'm going through time
The times I dreamed of, earnestly
I'm getting closer
Although some days, I shed tears
It remains in the footsteps
Wherever we are in the world
If we believe in each other
When we face each other
