Yeh alright  
Say the name Seventeen yep  
Your gestures hit right at my heart  
You make me say mansae a hundred times but  
After I wake up, I always say I'm so stupid

Every day in my dreams (ah ha)  
You put your arms in mine  
But when I wake up from this dream (ah ha)  
I feel like chulsoo without younghee

What do I do? my head is filled  
With things I wanna say  
Can someone say them for me?

Vernon let's go  
Uh I aimed for her, if I pick one  
Yeah I gotta slam dunk - if you become  
My female star, this will become a classic  
S.Coups let's go  
I get flustered by your mysterious eyes  
Why is it so hard to say one word to you?  
Dad, were you like this with mom?

I used to be a cold guy  
But now I worry about you all the time  
When you're walking on the street baby  
It's dangerous so walk on the inside

Hold on girl, don't ever  
Fall for someone else  
I'm gonna get jealous  
Hold on girl, from now on,  
I'm gonna call you mine  
I may be shy but I'm very careful  
From now on, look at me my lady

Mansae mansae mansae yeh  
Mansae mansae mansae yeh  
Mansae mansae mansae yeh  
When you look at me  
Mansae mansae mansae yeh  
Mansae mansae mansae yeh  
Mansae mansae mansae yeh  
Every day, I dream about you

A flower called you has blossomed  
I'm only looking at a flower called you  
So don't play games with me  
Because I'm getting anxious

Because I'm getting anxious  
You're the only girl  
In this large field

In my eyes, it's only you  
Does anyone object?

I used to be a cold guy  
But now I worry about you all the time  
When you're walking on the street baby  
It's dangerous so walk on the inside

Hold on girl, don't ever  
Fall for someone else  
I'm gonna get jealous  
Hold on girl, from now on,  
I'm gonna call you mine  
I may be shy but I'm very careful  
From now on, look at me my lady

Why aren't you sleeping? I'm in front of your house  
Can you come out for a moment?  
No matter how busy I am, I'll take care of you  
Wherever I go, I'll protect you  
As long as I'm blind with love  
I'll entwine my fingers with yours girl  
Bad bad bad bad girl  
Don't push me away anymore

Hold on girl, don't ever  
Fall for someone else  
I'm gonna get jealous  
Hold on girl, from now on,  
I'm gonna call you mine  
I may be shy but I'm very careful  
From now on, look at me my lady
