Yeah right now

Oh, god, look at them
Their gasping mouths
Seem bigger than a hippo my
My the distant and difference between us
God, at seventeen
There's already something different created
Yo listen up

Shh, I bet you're surprised
Of course, all your five senses are alive
Of course, I've entered your heart
Look at you look at you look at you cause

I want you to say my name
Let this admiration burst out

E O E O
I want you to say my name

Going up day by day
I'm already in the clouds right now
Clap clap if you go too easy on me
Your nose will be wounded
Don't look at me with that
Watch out, don't miss this opportunity
You, no matter young or old
After being impressed,
You'll look at me with hunger hunger
Before you regret you've told me enough
Well, try to catch me off guard from behind
Don't stay still and linger, linger too long oh

Shh, I bet you're surprised
Of course, all your five senses are alive
Of course, I've entered your heart
Look at you look at you look at you cause

I want you to say my name
Let this admiration burst out
