Just you
Only you can rock my world
Just you
Only you can be the reason for my pain (b b baby)
As if digging in the clouds
My heart is floating lighty
Everything starts with you,
So you should end it

The pain that feels good continues
Driving me to the edge, making me more dizzy
By the time I think I caught you I had lost you again
My whole body stiffens, only my eyes kept chasing you

I only use one word to unlock the door to your feelings

When I don't have the key, sweet words place second
I study you constantly
And repeat the study every day
I'll show you what I've done rock my head

Yeah just right now everything has stopped
My body stiffens as I look at you
Yeah just right now feelings that became intense
So dangerous I cannot hide

Rock my head rock my head
Rock my head rock my head girl
Rock my head rock my head
Rock my head (rock rock rock rock)
Rock my head rock my head
You take me to the top and
Straight down like a gyro drop
Rock my head rock my head
Rock my head (rock rock rock rock)
Rock my head rock my head
You take me to the top and
Straight down like a gyro drop

I hope and hope more at everything
Only you can control me
What kind of disease is this

Intoxication seems to fall
Into a deep night baby
Awaking and senses becoming more sensitive
The feeling is digging in deeper and deeper

Yeah just right now everything has stopped
My body stiffens as I look at you
Yeah just right now feelings that became intense
So dangerous I cannot hide

Rock my head rock my head
Rock my head rock my head girl
Rock my head rock my head
Rock my head (rock rock rock rock)
Rock my head rock my head
You take me to the top and
Straight down like a gyro drop
Rock my head rock my head
Rock my head (rock rock rock rock)
Rock my head rock my head
You take me to the top and
Straight down like a gyro drop

Getting caught in your wide ocean
I think I've lost
Several times a day because of you
My head is bombarded, there is no space
I'm trying to forget you
But the thought of you are blocking my view
I'm walking aimlessly on the street called "you"

Rock my head rock my head
Rock my head (rock rock rock rock)
Rock my head rock my head
You take me to the top and
Straight down like a gyro drop

Rock my head rock my head
Rock my head (rock rock rock rock)
Rock my head rock my head
You take me to the top and
Straight down like a gyro drop
