Baby, I will be your happiness
You're always on my mind, all the time
Please don't forget this moment

Oh, I can't hide it
Geez, I want to give you all of my heart
Oh my love, warmly call out for me when I'm by your side
I'll only fill you with love

Above that endless sky
This night of stars pouring down
Is looking at you sleeping next to me

Dreaming the same dream and feeling the same way
You see we are spending the same night together

Even if I give you everything in the world
I will never change
Promise me eternity
If you feel the same way as I do

No matter what happens
Don't worry, I'm by your side

Oh, I want to know more about your day with me
Oh my love, you are deeply positioned in my heart
You are the brightest light

In the many grains of sand
I can only find you
I want you protect you who's sleeping next to me in this night

Dreaming the same dream and feeling the same way
You see we are spending the same night together

Even if I give you everything in the world
I will never change
Promise me eternity
If you feel the same way as I do

Every moment without you is meaningless
Even the reason why I breathe
Is because my heart wants to have you in it

Dreaming the same dream and feeling the same way
You see we are spending the same night together

Even if I give you everything in the world
I will never change
Promise me eternity
If you feel the same way as I do

No matter what happens
Don't worry, I'm by your side
