

Fool

Sezairi

Everywhere I look around me
All I see is you
But what can I do
God, I feel like a fool

They told me you were trouble
Said that I already knew
Words from a fool
Now I know that it's true

I, ai, ai
Devoted myself quickly
So completely
I need to know you're there because

I feel a little lonely
Lately, when it's just us two
But what can I do?
God, I feel like a fool

Oh, I, ai, ai
Devoted myself quickly
So completely
I need to know you're there because

I'm close
To letting you go
I'm letting you know
That my heart
Is all yours to break
And if that's not enough
Then this isn't love

I could go to California
Lose myself to someone new
But what if I stay
Would that make me a fool?
