

# Mirage

Sezairi

Keep slipping down the gutter  
From the sidewalk  
Mind is full of you and I girl  
Can you help me out tonight?

Keep tripping, double taking  
When I go out hallucinating  
See your face around  
Baby help me out tonight

Driving round and feel you there beside me  
Walking at the air reminds me  
Should I do something about it?  
Smell you but I know it's just somebody else  
Won't ever have your body  
I know I should call you up

If you're a mirage  
There you're stealing my heart and  
Tears me apart  
Everyday, everyday, everyday, everyday now  
If you're a mirage yeah  
Girl I fell hard now  
Lost in the dark  
Everyday, everyday, everyday, everyday yeah

I know you're not there  
But it was so real  
Climbed the mountain but we came down  
Got a concussion now

My momma's asking where we went wrong  
I'm stupid for the way you're let go  
Yeah I'm paying for it now

Driving round and feel you there beside me  
Walking at the air reminds me  
Should I do something about it?  
Smell you but I know it's just somebody else  
Won't ever have your body  
I know I should call you up (I should call you up)

If you're a mirage  
There you're stealing my heart and  
Tears me apart  
Everyday, everyday, everyday, everyday now  
If you're a mirage yeah  
Girl I fell hard now  
Lost in the dark (Lost in the dark everyday)  
Everyday, everyday, everyday yeah

(Everyday, every, everyday)  
It tears me apart  
(Everyday, every, everyday)  
Yeah I'm lost in the dark  
(Everyday, every, everyday)  
Yeah it tears me apart

(Everyday, every, everyday)

If you're a mirage  
There you're stealing my heart and  
Tears me apart  
Everyday, everyday, everyday, everyday now  
If you're a mirage yeah  
Girl I fell hard now  
Lost in the dark  
Everyday, everyday, everyday, everyday yeah
