Pretty girl, what am I going to do if you
Keep on looking at me like that?
I feel like I'm going to explode
Just by looking at your eyes
The more I get to know you
Every day is different
I keep
Falling deeper into you yeah

Girl can't get you off my mind
It was hard to be patient
About wanting to meet you today

Why is time slow
Why can I only think of you
I'm so curious that I'm going crazy

So c'mon girl
Come to me, together
I keep on thinking of you whenever
I really don't want to miss it
Today again over and over again girl

So c'mon girl
Come to me, together
I can't stop forever
So baby let's get back together
Let's get back together

(Come to me, together
I keep on thinking of you whenever)
(I really don't want to miss it
Today again over and over again girl)

Pretty girl
I can't fall asleep in your thoughts
I keep falling
Deeper into you

Girl can't get you off my mind
My feelings toward you
No matter how many times you come in

You won't know this feeling
It doesn't make sense, impossible
Love has started again

So c'mon girl
Come to me, together
I keep on thinking of you whenever
I really don't want to miss it
Today again over and over again girl

So c'mon girl
Come to me, together
I can't stop forever
So baby let's get back together
Let's get back together

Even a boring island
Can become a scenery with you
I'll fill your secret diary
With special events
Baby we belong together
Ba ba bay
Everyday it makes sense
With the two of us
Stick by my side
My arm is a seat belt belt belt
I honestly
Want to be embraced

I want to hug you together
Like this in my embrace whenever
I only want you
In my heart over and over again girl

Let's do everything together
I want you forever
So baby let's get back together
Let's get back together

So c'mon girl
Come to me, together
I keep on thinking of you whenever
I really don't want to miss it
Today again over and over again girl

So c'mon girl
Come to me, together
I can't stop forever
So baby let's get back together
Let's get back together
