

## Another Place

SG Lewis

I know, I know  
There's another place we can go, oh  
I know, I know  
We'll make our escape, find our home, oh  
When the sunlight flies like a mirrorball  
When we find ourselves at the curtain call  
I know, I know  
There's another place we can go, oh

Oh  
Oh

Lately I've been thinking  
There's gotta be something more, more than this, mm  
Our ship is sinking  
We've gotta stop banging doors and admit  
We've got to the worst of it, been through the hell of it  
Dragging our feelings out, keeping our promises  
So I've been thinking  
There's gotta be something more, more than this, oh

I know, I know  
There's another place we can go, oh  
I know, I know  
We'll make our escape, find our home, oh  
When the sunlight flies like a mirrorball  
When we find ourselves at the curtain call  
I know, I know  
There's another place we can go, oh

Oh  
Oh

I know, I know  
There's another place  
Somewhere we can go (Oh)  
There's another place  
Somewhere we can go  
I know, I know  
There's another place (There's another place)  
Somewhere we can go (Oh)  
There's another place  
Somewhere we can go
