

Last time
Could of save my life
Pulling me in like a tide I...
Feel the energy rise girl
Too late
To be giving me your two faces
See ya riding a new wave
But cha floating in my world

You can't deny that you wanna stay
I can't see this working any other way

If you want
Just say I wanna
Cause when I hold you
I feel your aura
If you want
Just say I wanna
Cause when I hold you
I feel your aura

Blue I don't like, red lights just might
Take it to edge baby girl
I'll jump, you fly
I'm falling baby
Cause you shine
I don't even need the moonlight
Pulling me in like a tide I...
Gotcha energy now girl

You can't deny that you wanna stay
I can't see this working any other way

If you want
Just say I wanna
Cause when I hold you
I feel your aura
If you want
Just say I wanna
Cause when I hold you
I feel your aura

If you want
Just say I wanna
Cause when I hold you
I feel your aura
If you want
Just say I wanna
Cause when I hold you
I feel your aura
