

Blue

SG Lewis

Blue in your eyes
As I fall for the light
But you'll fade away
When morning light is rising
Leave a taste lingering on my skin

Have I been here before?
You touch me and I fall
I close my eyes, on the horizon me and you
I can see the lights inside my mind are glowing blue

You won't stay
Said I keep those thoughts at bay
But I can't help feeling
There's nobody like you
How I've tried, but I can't let you go

Have I been here before?
You touch me and I fall
I close my eyes, on the horizon me and you
I can see the lights inside my mind are glowing blue

Have I been here before?
You touch me and I fall
I close my eyes, on the horizon me and you
I can see the lights inside my mind are glowing blue

Have I been here before?
You touch me and I fall
I close my eyes, on the horizon me and you
I can see the lights inside my mind are glowing blue
