

## Desire

SG Lewis

You are my desire  
Love it when you set my heart on fire  
Tell me do you feel the way I do  
All I want it is one night with you  
You are my desire  
Everytime we kiss I can't deny it  
Tell me do you feel the way I do  
Are you falling in love with me too?

Don't care where we go tonight  
As long as you're there with me  
I just need to let it out  
And dance till my body's free  
Don't care to have the talk  
You stare when I look away  
It's cute 'cause I feel it all  
And now I know you're the same

You are my desire  
Love it when you set my heart on fire  
Tell me do you feel the way I do  
All I want it is one night with you  
You are my desire  
Everytime we kiss I can't deny it  
Tell me do you feel the way I do  
Are you falling in love with me too?

You are my desire  
Love it when you set my heart on fire  
Tell me do you feel the way I do  
All I want it is one night with you  
You are my desire  
Everytime we kiss I can't deny it  
Tell me do you feel the way I do  
Are you falling in love with me too?

Desire  
In love with me too
