

Feed The Fire

SG Lewis

One, you gotta have fun
Two, you gotta move
Three, can you do it with me?
Four, when the beat stops baby we can rock some more

I think we're onto something I want some more
Feels so familiar like we've been here before
Don't just look at me with that glare in your eyes
Just let it happen, feed the fire
Your sweat is dripping getting under my skin
I got you open won't you pull me in (Pull me in)
You pour it on me slipping into desire
Whatever happens, feed the fire

Like Shining
Diamonds everywhere you go
Blinding
Don't turn down the stereo
Finding, I'm caught in your mazes, intertwining
I'm feeling amazing
Hold on, try me
Don't you stop keep going (Keep going)
Turn me on, me on

I think we're onto something I want some more
Feels so familiar like we've been here before
Don't just look at me with that glare in your eyes
Just let it happen, feed the fire
Your sweat is dripping getting under my skin
I got you open won't you pull me in (Pull me in)
You pour it on me slipping into desire
Whatever happens, feed the fire

Higher
Never bring me down below
Hiding
Take me places you control, yeah
Finding, I'm caught in your mazes, intertwining
I'm feeling amazing
Hold on, try me
Don't you stop keep going
Turn me on, me on

I think we're onto something I want some more
Feels so familiar like we've been here before
Don't just look at me with that glare in your eyes
Just let it happen, feed the fire
Your sweat is dripping getting under my skin
I got you open won't you pull me in (Pull me in)
You pour it on me slipping into desire
Whatever happens, feed the fire

I think we're onto something I want some more
Feels so familiar like we've been here before
Don't just look at me with that glare in your eyes
Just let it happen, feed the fire
Your sweat is dripping getting under my skin

I got you open won't you pull me in (Pull me in)
You pour it on me slipping into desire
Whatever happens, feed the fire
