

Flames

SG Lewis

Blow the smoke away
I know you don't like it, mmm
You're against the grain
That's how I like it, mmm
First degree, you'll follow me
And I can't hide it, mmm
You scorch the sky and tear it down
You lit a match in me, mmm

I'm going down in flames and you're feeding the fire
It's worth to breathe
Call me insane, I'm in love with your games
Oh, I hear your name with the song of the fire
Where else would I be?
I'm letting it burn, burn, burn
Letting it burn, burn, burn

Drew your shape in ash
Ain't held you, I'm all about you
I'm always coming back
Getting close to your heat
You lit a match in me

I'm going down in flames and you're feeding the fire
It's worth to breathe
Call me insane, I'm in love with your games
Oh, I hear your name with the song of the fire
Where else would I be?
I'm letting it burn, burn, burn
Letting it burn, burn, burn
