

## Rosner's Interlude

**SG Lewis**

Music had harmony in it  
Which all the music  
All the disco, I shouldn't say all  
Most of the disco music at that time had harmony  
And the harmony, I found it to be essential in dancing  
If the music lacks harmony, it doesn't move me at all  
And I don't feel like getting up out of my chair to dance  
It just doesn't  
The lack of, that unresolved chord  
That we all seek after  
That we all want to resolve  
In our minds and in our hearts, however you want to put it  
And it's the thing that kinda makes you want to get up and dance  
It's the makes you tap your foot  
And you move your body and then you wanna get up and dance  
I mean It's just a natural thing!  
There's nothing you have to do
