SG Lewis

Never needed much, but I know now  
What I finally love is so wow  
Sugar on my lips like the rain again  
Shadow of your touch got me feeling  
Pulse for your love

Never needed much but I know now  
What I finally love is so wow  
Sugar on my lips like the rain again  
Shadow of your touch got me feeling  
Sugar  
Sugar

I think all the little things you do are all about me  
I know you want me  
I want you too  
Or so it seems  
I think, I think I get along with you  
We only had a moment  
Let's make it last a while  
Forever  
Sugar on my lips  
Forever  
I will rise as if you are the sun  
Please don't give up on me, you're the only one

Never needed much, but I know now  
What I finally love is so wow  
Sugar on my lips like the rain again  
Shadow of your touch got me feeling

Never needed much but I know now  
What I finally love is so wow  
Sugar on my lips like the rain again  
Shadow of your touch got me feeling  
Sugar
