

# Times We Had

SG Lewis

Love the times we had  
But one of us was just a little bit crazy (Crazy)  
Neither of us has to admit it right now (Right now)

(Boom, boom)  
Ooh, ooh  
(Boom, boom)  
Ooh  
(Boom, boom)  
Ooh

Can I have this moment of deja vu?  
It don't come twice under a blue moon  
Hyper particles buzzin' in the air  
Are fruit flies at a street fair

What if I never came around the bend  
And walked straight into you  
Like the stars  
Nothin' like a play to shut that down

Love the times we had  
But one of us was just a little bit crazy (Crazy)  
Neither of us has to admit it right now (Right now)

(Boom, boom)  
If I play with fire I get burned (Boom, boom)  
Says the one that my lesson is learned  
Can I have this second of clarity?  
Memory has been cloudy ever since  
I shared a bed with a stranger who was a fiend  
Who would later teach me how to regret that decision

What if I never came around the bend  
And walked straight into you  
Like the stars  
Nothin' like a play to shut that down

Love the times we had  
But one of us was just a little bit crazy (Crazy)
