

# Transition

SG Lewis

Ooh

Free your mind  
Touch the line  
Come alive  
Make your transition  
Switch me up  
Can't slow down  
The time is now  
Make your transition

Make your transition  
(Make your transition)  
Make your transition  
(Make your transition)

Come follow me (Oh)  
I'm ready for you now  
I'm outta reach  
Can't touch the ground  
We're on the borderline  
Ain't no looking down  
So if you wanna run  
There's no stopping, no stopping now

There's no stopping, no stopping now  
There ain't no stopping, no stopping now  
No stopping, no stopping now, yeah

Gonna make it  
Accelerate yourself  
No, no, no, no

Free your mind  
Touch the line  
Come alive  
Make your transition  
Switch me up  
Can't slow down  
The time is now  
Make your transition

(Make your transition)  
(Make your transition)

(Make your transition)  
Make your transition  
(Make your transition)

Free your mind  
Touch the line  
Come alive  
Make your transition  
Switch me up  
Can't slow down  
The time is now  
Make your transition

(Make your transition)  
Make your transition  
(Make your transition)  
Make your transition  
(Make your transition)  
Ooh
