

# Vibe Like This

SG Lewis

Been around the world, I did  
Never felt a vibe like this  
Might be worth the risk  
To make up for the time I missed

Let me make up for the time I missed  
Been around the world I'll take you on my next trip  
When I pull up I'mma slide this  
Do your two step, I do mines like this  
AP your wrist girl, ain't no better time than this  
G5, it ain't no flyer than this  
Crocodile Birkin, I did it for Steve Irwin  
Whatever it takes to get you back, girl I'll put the work in just

Let me know where you wanna go  
Make believe or reality  
Come slide on me show it's real if you feeling me  
I can feel it's the energy  
In the meantime, between time, in your arms wish we could freeze time, I need mine  
'Cause you're the only one in here I wanna try

Been around the world, I did  
Never felt a vibe like this (Never felt a vibe like this)  
Might be worth the risk  
To make up for the time I missed  
Ooh, yeah, ooh, yeah  
Been around the world, I did  
And I never felt a vibe like this (Never felt a vibe like this, oh, no, no)  
And it might be worth the risk  
Make up for the time I missed (Make up for the time I missed)

Tell me that that pussy's still mine, is it all me?  
And you'll never give it up to one of my colleagues  
We should go to Bali, after that The Maldives  
You said if it's real then, I'll give you these house keys  
And make this house where the home is  
I know you like Diamonds and Roses  
Tell me what your goal is  
I'mma make sure you never know what alone is

Let me know where you wanna go  
Make believe or reality (Hey, yeah, yeah, yeah, yeah)  
Come slide on me show it's real if you feeling me  
I can feel it's the energy (Oh, whoa)  
In the meantime, between time, in your arms wish we could freeze time, I need mine  
'Cause you're the only one in here I wanna try
