Sha EK

I was just hoping, everything'll change when that nigga jumped
in the street
I'm off to leaving practice everyday, so leaving my chrome with
that heat
So leaving my chrome with the-, I was walking with guns that we
re bigger than me
I was moving fast, I was always rushing, that's the side y'all
didn't see

It got crazy, I got so many chops, that I brought the gun to th
e church
Word to my dead, I could merge, I was tryn' put a nigga in the
dirt
All the time I bent through, left a nigga hurt
It's the opps, my family in danger
But they know that we comin' outside, whenever it's time to go
frame some
I had to make sure my daughter eat, I did so much for us, I cou
ld show receipts
I do shit in the streets, so they know it's me, how the fuck yo
u gon' call me a deadbeat?
Of course, you gon' sit there and try to lie
I shed so many tears, I can't even cry
Couple niggas that's praying for me to die, I get sad when she
tell me: "Bye."

I was just hoping, everything'll change when that nigga jumped
in the street
I'm off to leaving practice everyday, so leaving my chrome with
that heat
So leaving my chrome with the-, I was walking with guns that we
re bigger than me
I was moving fast, I was always rushing, that's the side y'all
didn't see

I gotta get out my head, ten toes if we ever gon' fed
Pain, PTSD could get in, I cannot let anyone see my bed
I gotta really go stuck with that bread
Hell bro, so I don't be trusting these legs
I feel like I just gotta heal, that's why I'm always poppin' pi
lls

I was just hoping, everything'll change when that nigga jumped
in the street
I'm off to leaving practice everyday, so leaving my chrome with
