

Goin

Sha EK

(Damn-damn, Donnie, you killed this shit)

Where the fuck that bitch goin'?
And when you chill with your friends they be ho'in
But she wanna leave me, that shit be showin'
Whenever I'm mad I get top when I'm towin'
I got hit once, I still be mad I was loafin'
Goin' through pain so I handle with potion
Only twenty and bitch, I got motion
Come with me, swim in that ocean

Like the ice on my wrist, but I'm frozen
Why the fuck they keep sayin' I'm chosen?
She tryna leave me, can I go?
And she wanna see me, I gotta go
She don't like when I come to her crib with the bros
It was long miles back, comin' from my soul
This the way that I eat
I'm a rapper but I come from the streets
Sometimes, I just really wanna tweak
But I can make money talkin' on a beat
They keep on sayin' I fell off and shit
But I've just been livin' the real life
You not sad, how you know what a deal like?
You not touchin' on bruh, you don't know how that feel like

Where the fuck that bitch goin'?
And when you chill with your friends they be ho'in
But she wanna leave me, that shit be showin'
Whenever I'm mad I get top when I'm towin'
I got hit once, I still be mad I was loafin'
Goin' through pain so I handle with potion
Only twenty and bitch, I got motion
Come with me, swim in that ocean
