

Lie To Me

Sha EK

Now she wanna lie to me, cause I did bad
She said I left all the times that she was sad
Everybody with me, 'till they found out about my past
First time that we fucked, she said she thought I wanted last
Should've never fucked me, can't let these bitches touch me
I make all this money on my own, I wasn't lucky
[?], I don't want you to trust me
Now I know my worth, like nobody above me

Why you wanna lie to me? I don't wanna lie
I cannot let these dirty bitches, see me cry
I just wanna hit it from the back, when I be fried
When I get that milly, I'ma split it with the guys
Sneaky links can't lay with me, they can't even stay with me
After this, I cannot let no other bitches play with me
(Sneaky links can't lay with me, they can't even stay with me
After this, I cannot let no other bitches play with me)

Now she wanna lie to me, cause I did bad
She said I left all the times that she was sad
Everybody with me, 'till they found out about my past
First time that we fucked, she said she thought I wanted last
Should've never fucked me, can't let these bitches touch me
I make all this money on my own, I wasn't lucky

Now I know my worth, like nobody above me
Now she wanna lie to me, cause I did bad
