

# Count On Me

Shablo

Whatever it is  
Girl you know...  
Whatever it is  
Girl you know, pick up the phone

Baby I've been saying to you that  
You can tell your secret to me  
You know I'm gonna keep it 'till scream  
No more running round  
And looking for there's someone that you can trust  
You know I'm gonna keep it between us  
No one's gonna keep it between us  
I didn't know you can feel so bad (Uhh, I'didn't know)  
And I wish there was more that we could have

Whatever it is, you can just tell me  
No matter the time, you can always call me  
Girl you know, pick up the phone  
You can count on me...  
Whatever it is, you can just tell me  
No matter the time, you can always call me  
Girl you know, pick up the phone  
You can count on me...

And baby, I realized  
It's a couple of years, and it took sometimes  
This love's really going to made us blind  
You didn't ever open your eyes  
'Cause I noticed, ya change the light  
That's why you, you cannot  
Couldn't gave'm all you've got  
Didn't wanna gave us a shot  
I don't know what you misunderstood (Uhh, I'didn't know)  
The things that are safe for you (Oh yeah)

Whatever it is, you can just tell me  
No matter the time, you can always call me  
Girl you know, pick up the phone  
You can count on me...  
Whatever it is, you can just tell me  
No matter the time, you can always call me  
Girl you know, pick up the phone  
You can count on me...

You can, you can, you can...  
Count on oe...  
You can, you can, you can...  
Call me baby, please  
You can, you can, you can  
No matter the time, noo  
You can, you can, you can  
Just pick up the phone
