

Another Me

Shaboozey

I wake up every Saturday
Make my bed
Bless the streets
Working 9 to 12
I don't get any sleep (Tell me)
Why would anybody envy me
Don't want beef with you
I do not have the energy
I got OCD
I don't think this world is how it's supposed to be
Fly to outer space and back
And I guarantee
Search the universe
And you won't find another me

If I get that backend
Imma buy a U.F.O
All chrome, brand new, see how fast it go
On a whole another level I can put you on
Better buckle up girl
We taking off
She ain't never been this high before
She squeezing on my hand
Took her to another galaxy
She didn't understand
We got lost inside the Milky Way
I had to change the plans
Don't know we getting home
Cause I don't know how to land

I wake up every Saturday
Make my bed
Bless the streets
Working 9 to 12
I don't get any sleep (Tell me)
Why would anybody envy me
Don't want beef with you
I do not have the energy
I got OCD
I don't think this world is how it's supposed to be
Fly to outer space and back
And I guarantee
Search the universe
And you won't find another me

Search the universe and you won't find another me
And ya homies they might switch up but not mine on me
And I'm never by my lonely
Know my clique with me
They die for me they ride for me won't flip on me
And it's hot like Pomona
We do what we wanna
When I was in high school
I hung out with the loners
Now she in my DMs
Telling me to fly her over
Everything is Kosher in Southern California

Quarter piece, need some Mac n' cheese
I can take you way beyond the eye can see
Won't you hop into my saucer baby slide with me
Tell me where you wanna go just know it's fine by me

I wake up every Saturday
Make my bed
Bless the streets
Working 9 to 12
I don't get any sleep (Tell me)
Why would anybody envy me
Don't want beef with you
I do not have the energy
I got OCD
I don't think this world is how it's supposed to be
Fly to outer space and back
And I guarantee
Search the universe
And you won't find another me

Search the universe and you won't find another me
Search the universe and you won't find another me
And ya homies they might switch up but not mine on me
Search the universe and you won't find another me
