

Dead Opps (Interlude)

Shaboozey

Tell 'em rest in pain
And long live the gang
All that smoke wasn't good for his brain
He got robbed on the train
And pressed for his chain
Now the newspapers all say his name

And I know you won't forget
When they lay your brother to rest
That they only sing along to the line in the song
'Bout your partner 'cause they don't know the rest
