

I Came Up

Shaboozey

Can't wait for you to hear all these songs I wrote
About how much you did me wrong, I won't
Sit here, watching time go by, waiting for you to tell me its true
Hold your line like a tight rope, Let me down, Had high hopes
You can't really be the one, Let me tell you, I ain't know
You hate yourself, change up, I call you, You hang up
Feels like the world ganged up ever since a nigga came up
Came up up up
Came up up up up up
Came up up up
Came up, Came up
Ever since I came

Ever since a nigga came up
Can't sleep so I stay up
Can't eat gotta cake up
Don't play, tell 'em pay up
All these girls comin' with the love
Tell 'em don't step on the rug
Ay don't step on the rug
Come on don't step on the rug
Pulling strings like a violin
Foreign girl had to fly in
She pop a pill like a vitamin
Sit back and watch the money pile in
Tell me what my pocket style is
Watch a hater sit in silence
Bouncin' through the club, All in
Turned a dove to a thousand
Won't stop till we billionaires
Can't find me in my crib, I'm never there
Do a show, I sound like John Mayer
That's your chick, I think she caught the vapors
Its OK, I ain't tryna date her
Shawty pressed like a waffle maker
Can't fuck with niggas, they my doppelganger
Got a shawty built just like Topanga (Ever since I came)
Dirty blonde I ain't tryna tame her
Asian girl look just like her maker (Ever since I came)
Got the song, I tell her see you later
[?] all this paper (Ever since I came)
Blockin' hoes like I'm playing Jenga
Private Jets, Private hangar's (Ever since I came)
Playing chess, She want sex
I'm busy hoe, Give it a rest
She know we next, Shawty wet
Aquafina, Deerpark
Booty rockin', [?] sparks
Transform a girl to Megan Fox
You hit my phone cause the money talk
We makin' movies just like [?]
You see the signs we already off
Tell her pull up now, she already gone
Shades tinted so you know its lit
You kissin' her you prolly need a mint
She with the crew, she want the clique
Platinum chain, Diamond Wrist

You ain't shinin', Tisk-Tisk
This ain't purple rain, Rest in peace to prince
No singles, only banger's, You thought this shit was hard, wait till it get
[?]
