

Last Of My Kind

Shaboozey

Ain't many that are built like me
I'm the last of my kind
Grew up on a back road baby
I know how to survive

Been out with the young guns blazing
So you better not try
You won't never find another like me
I'm the last of my kind

Yeah yeah
I'm the last of my kind
Yeah yeah
I'm the last of my kind

Got folks that carry some shit, uh
Can't cross state lines
Ducking cops in the dirt hills baby
We ain't paying no fines

If ya coming to the sticks then maybe
Bring a four wheel drive
You won't never find another like me
I'm the last of my kind

Yeah yeah
I'm the last of my kind
Yeah yeah
I'm the last of my kind

Try to find another just like me
You'll be looking for a real long time
Cause I'm
Yeah yeah
I'm the last of my kind

This world could be a son of a bitch
Well look through my eyes
Can't always climb to safety
Sometimes you gotta flight

Go get it if you want it
Keep that fire burning inside
You won't ever find another like me
Cause I'm the last of my kind

Yeah yeah
I'm the last of my kind
Yeah yeah
I'm the last of my kind

Try to find another just like me
You'll be looking for a real long time
Cause I'm
Yeah yeah
I'm the last of my kind

I just

I'm the last of my kind

I'm the last of my kind

Up high in the red rock mountains

Almost lost my mind

I be out where the black birds hang yeah

Circle around them skies

Can't wait much longer baby

Yeah it's my time

You won't ever find another like me

I'm the last of my kind
