We ride together, we die together
Now that I'm gone, I know your life a livin' hell, yeah

I said that this would happen from the start
Diamonds, yeah, they glowin' in the dark
Surrounded by some people I don't know
I know they resent me and it shows (Woah)

Got my Rollie like Diddy and Ma\$e
Took a risk, I ain't playin' it safe
Made a whole lot of money today
You asleep and I'm still at the bank
Hop in a Chevy and take it to space (Away)
Took your lady to somewhere expensive (Somewhere expensive)
Got the bill and I told her to split it
I left, said I'd be back in a minute
I kept my wallet inside my jeans, yeah (Wallet in my jeans)
I didn't pay for anything (Didn't pay for anything)
And I gotta keep a Life Alert on me (On me)
'Cause I might die today if all my money fall on me (On me)

Got my baby a Birkin bag, yeah, it's big as hell
She all on me, I know she want me, she think we chill
She put molly inside her body, she finna melt
Called her Kelly, her name was Pauline, she sick as hell

Diamonds, yeah, they glowin' in the dark
Surrounded by some people I don't know (I don't know these folks)
