

Steal Her From Me

Shaboozey

Met her out west
Got me riding the chest
Another man loved her
But she had her eyes set on me

And I'm not a homewreck
A lie or a cheat
She chose up and you lost, cowboy
But it don't mean she ain't gonna leave

'Cause nothing lasts forever
And momma raised me better
See these girls belong to the streets
What goes around comes around
And karma she'll hunt you down
This town right here is full of thieves
I stole her from him
Now someone's gonna steal her from me

She's as wild as the wind
So I won't seek revenge
I won't place a bid
That she won't up and get
When she's through with me

'Cause nothing lasts forever
And momma raised me better
See these girls belong to the streets
What goes around comes around
And karma she'll put you down
This town right here is full of thieves
I stole her from him
Now I someone's gonna steal her from me

Let's put it to rest
I want all this to end
One of us must go down
Somebody chose

'Cause nothing lasts forever
And momma raised me better
See these girls belong to the streets
What goes around comes around
And karma she'll hunt you down
This town right here is full of thieves
I stole her from him
Now someone's gonna steal her from me

Don't steal her from me
Don't steal her from me
Just don't steal her from me
Don't steal her from me
