Rebel Teenager From Mars

Shades Apart

I crashed the party when I splashed
Down in the surf, the new kid on Earth
Dropped out of orbit and into high school

Every day the Earth stood still
There was no thrill, nothing was real
I could break free if I just broke all the rules

There is no life down here
In this poison atmosphere
No one comes near

Rebel teenager from Mars
Rebel teenager from Mars
One day I'll ride away up there, into the stars
Rebel teenager from Mars

The homecoming queen, bored by her scene
New model homes, suburbanite clones
She loved to ride with me in our galaxy

She said the others hate me now
They don't approve of me and you
Now that our story's out, they're hunting us down

They said she wouldn't dare
They chased us everywhere
Everyone stared

Rebel teenager from Mars
Rebel teenager from Mars
One day I'll ride away up there into the stars
Rebel teenager from Mars

Let's let them live in fear
Burn out this atmosphere
And jet out of here
Let's get out of here

Rebel teenager from Mars
Rebel teenager from Mars
Forever we'll ride free up there, out in the stars
Rebel teenager from Mars
