

Bitter Man

Shadow Project

He will hold you in arms
He will touch you from afar
He will take you, take you in
He will take you like heroin
He's a bitter man
Bitter man, bitter man
He's a bitter man
Bitter man, bitter man

He will lift you to the clouds
He'll say he loves you without his mouth
No one's better, he took you in
No one's better than his deadly sin
Your neck is throbbing
Your body aches
Oh, please lord take this away

He's a bitter man
Bitter man, bitter man
He's a bitter man
Bitter man, bitter man

You came to me like a hero
Your red carpet rolled out
All doors flew open before me
It was so beautiful
It was so beautiful
Until I found out your angry world
Your angry world
Yeah
She might have hurt you
It's no fault of love
You think burning me
Or burning others will heal your wounds
No, no, you just got to learn to forgive

My father says, I don't need this
This lie, this pain you give
Acting on a bitter heart, a bitter life, hey bitter man
You think I've got it wrong
Wake up, bitter man
You're so bitter
Your bitter touch
Your bitter world

You're a bitter man
Bitter man, bitter man
You're a bitter man
Bitter man, bitter man

He will walk away as he drops you down
He will crown you his crying clown
He prides himself, he doesn't know
The pain he gives helps it grow
With his bitter life he has no start
Can't forgive without a heart

He's a bitter man
Bitter man, bitter man
He's a bitter man
Bitter man, bitter man
He's a bitter man
Bitter man, bitter man
He's a bitter man
Bitter man, bitter man
He's a bitter man
Bitter man, bitter man
He's a bitter man
Bitter man, bitter man
